MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Management Advisory Group Paper: "An
Increased Role for the Younger Officer"

REFERENCE : DD/S 70-1632

This is in response to your request in subject memorandum for information on where young professional officers are being used or could be used in the Office of Finance. I suggest that young professionals could be used (and already are being used, paras. d & e below) to our mutual advantage in an advisory capacity on the following decision recommending bodies:

- a. The Suggestion Awards Evaluation Panel
- b. The Junior Professional Evaluation Panel. (This Panel recommends assignments, training and promotions for O/F junior professionals from GS-07 through GS-09. We would consider using a young professional on this Panel at a grade not less than GS-11).
- c. The Travel ^{Policy} ~~Planning~~ Committee JAP.
- d. The Overpayment Review Committee (We are already using young professional officers to conduct the background investigation of requests for waiver of overpayment).
- e. The Critical Review Committee (one member of the Critical Review Committee set up in each component of the Office of Finance in February 1969 to review and comment on the efficiency of office operations and procedures was, by direction, a young professional officer).

L. E. Bush
Director of Finance
